

# SAT MATH SECTION

Introduction to SAT Preparation Sessions

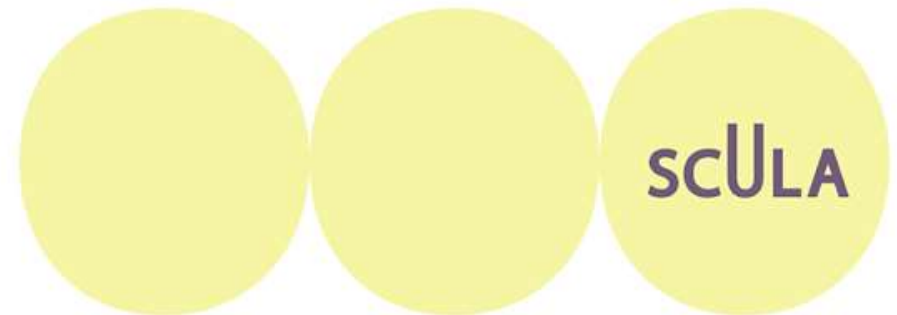

INTRODUCE YOURSELF.

*HELLO! I'm...*

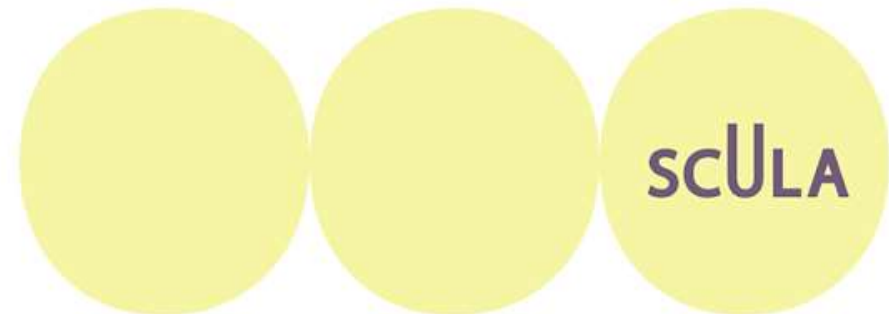

SAT Math Instructor .

Scored 800 on the SAT math Section twice .

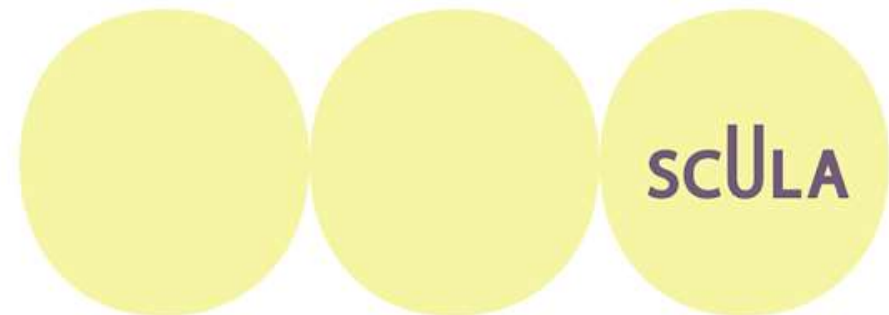

# WALKTHROUGH OF THE SESSION

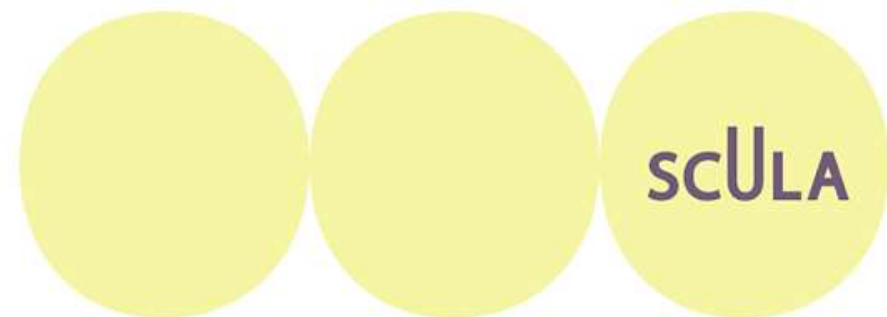

- Format of the Test
- Test length (number of operational and pretest questions)
- Time allotted and Question Types

**Your SAT Math score will be  
on a scale of 800.**

Initial Setup		
Reading and Writing baseline module	32 minutes	27 questions
Reading and writing adaptive module (Easier or Harder)	32 minutes	27 questions
10-minutes break		
Math baseline module	35 minutes	22 questions
Math adaptive module (Easier or Harder)	35 minutes	22 questions

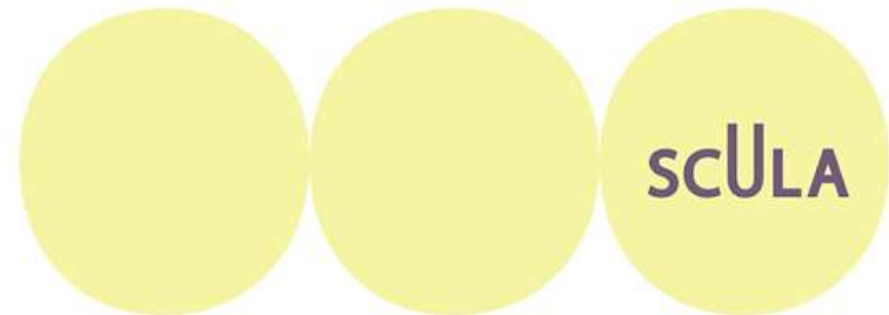

**The Test Format will  
have TWO MODULES.**

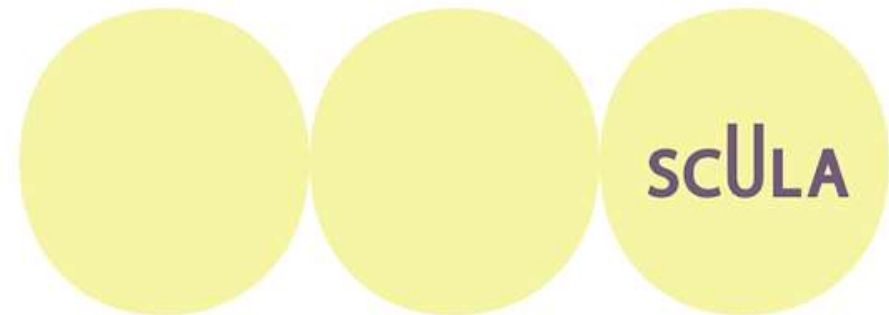

# The two modules are separate.

- Two-stage adaptive test design: one Math section administered via two separately timed modules .
- Once you move to the second module, you are not allowed to go back and edit your answers from the first module.
- If you are still on the same module, you can edit your answers as move back and forth.

Each Module is allotted  
35 minutes!

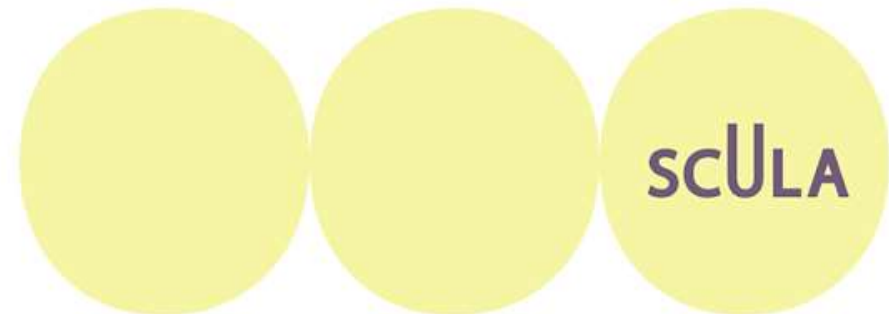

## BOTH MODULES HAVE THE SAME STRUCTURE

**Each module has**

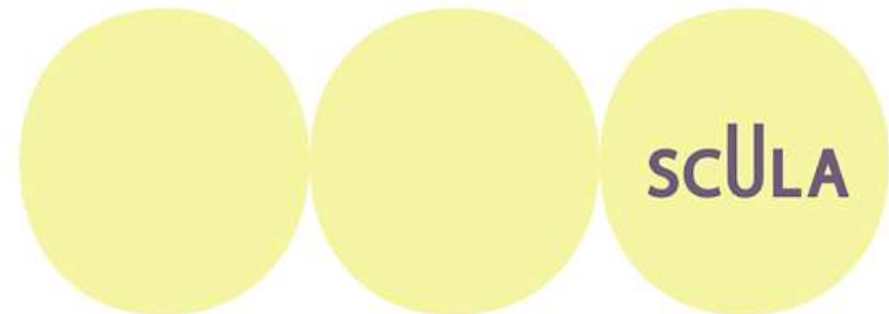

20 operational questions and 2 pretest questions.

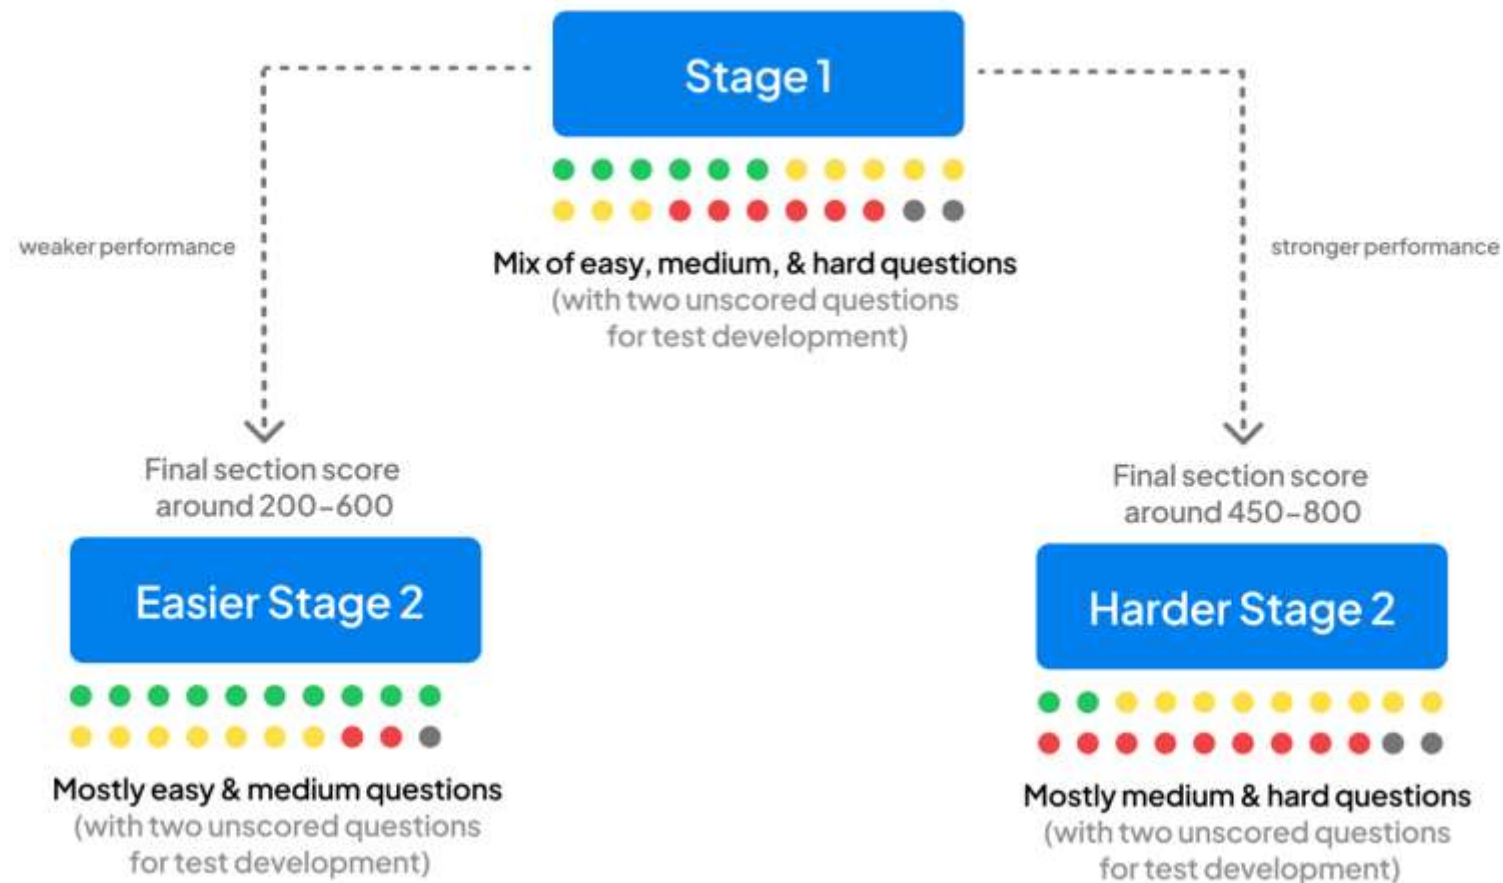

## The second module is adaptive.

Adaptive Structure – New SAT Practice Test #1			
Section	Questions	Module 1 Performance	Module 2 Difficulty
Math	22	15 or more correct	Hard
		13 or fewer correct	Easy
Reading and Writing	27	18 or more correct	Hard
		17 or fewer correct	Easy

Based on how students perform on the first module, the second module (a.k.a the adaptive module) of questions will be harder or less hard.

# College Board will use the adaptive test to score your Test

# QUESTION TYPES
